* NOTE: Vinyl graphics allowed for in prices above are for single colour text only.

Swing signs deflect the wind for outdoor stability. These models are intended for permanent messages or signs. The metal base version (L) is for

moderate exposure situations. The version with a heavy-weight recycled plastic base (R) is designed for maximum wind stability. (Frame is white).

SW.1

SW.2

Plastic chalk card inserts are available in matt black or green for use with chalk pens. (See page 48 for prices and limitations to use)

Windcheater (Right) offers excellent wind stability thanks to the water-filled base and robust springs to deflect the wind.

Snap frames on each side incorporate a waterproof seal to help protect posters from the weather.

Integral wheels mean that the unit can be moved easily or brought in at night.

D-top A-board (right) combines a logo or permanent message with a 20"x 30" snap frame each side for your posters. This is a stylish wind-stable model due to its heavy duty tubular steel frame (silver).

Price includes single-colour vinyl graphics on the D-panel (subject to sight of artwork).

SignClampers

- * Ideal for displaying Correx or foamboards.
- * Sign Clamps slide up the pole & are hand tightened.
- * Heavy stable base or screw-on versions..
- * Rust free and durable outside.

SignClampers - Type 10, Type 5 and Type 6

Order Code		£ ea	10 @	25 @
10.0	Type 10 SignClamper with base	40.00	36.00	32.80
10.EX	Extra height* version of Type 10	43.33	39.00	35.00

6.0	Type 6 with screw base flange	21.00	18.90	17.22

Type 6 SignClamper

This SignClamper has a flange fitting which screws down to the bench top. The pole is removable, if required.

The Windcheater (see opp. page) is ideal for garden centres and other outdoor applications. When filled with water (or sand) it performs well in windy locations - yet the integral wheels mean it can be moved around (on a firm smooth surface). The snap frames are waterproof and as an alternative to posters there is sufficient depth to take a 1mm Foamex sign panel (i.e. with permanent vinyl text).

Extras

Order Code		£ pair	20+ prs @
S.CLAMPS	Extra pair of Sign Clamps	5.50	4.95
S.CLIPS	Extra pair of U-clips for Type 5	2.65	2.39

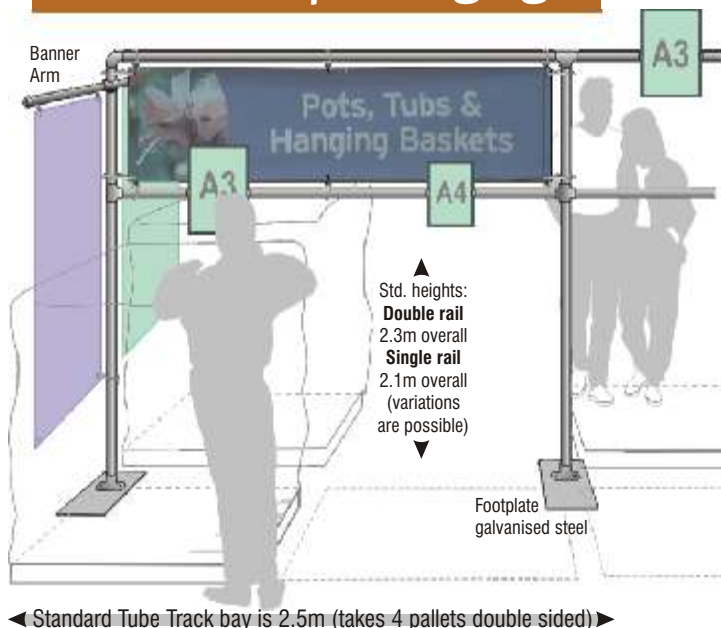

* Extra height version of SignClamper has a 1.8m high pole, but the wind stability is slightly decreased compared with the standard 1.4m pole version.

Barrier systems

Temporary (changeable message) or semi-permanent branded barriers and advertising crowd control railings can be supplied to order. Tell us what you want to achieve and we will advise you on the options.

TUBE TRACK pallet signage

- * Modular structure is quick to erect or move.
- * Weight of pallets provides stability in wind.
- * Single/double rail versions for frames/banners.
- * Durable - aluminium tube/galvanised fittings.

Tube Track has been improved - it's now made with heavy duty aluminium tubes.

Single rail version (R) is designed for A3 Slim frames fitted with special ratchet type clips.

Double rail version (L) is designed for displaying banners - from suppliers or produced in-house - and it comes with bungee cords for eyeleted or Holdons for plain banners.

Tube Track prices Each run requires a Starter bay and a number of Continuation bays. Each bay is 2.5m long for 4 pallets (i.e 2 pairs back-to-back). E.G. A 16 pallet system requires 1 Starter +3 Continuation bays (10m/34ft long)

Angled bed-card holders

* *Angled* bed card holders fitted with adjustable clips.

There are two types of angled holder:

(Left) made from 6" PVC bed-card track, or
(Right) based on A5 Slim Frames, with factory fitted clips.

The rear clips, made of bendable aluminium, can be adjusted to suit timber up-stands up to 1" thick.

The clips grip well yet are easy to re-position.

Roto Clip model				
H.ROTO	PVC holder with twin Roto Clips	3.99	3.59	3.27

Roto Clips

PVC bed card holders can be supplied fitted with Roto Clips.

They are not as robust as the above versions with aluminium clips, but they are versatile as the clips will attach to a wide range of benches and plant containers. Swivel mechanism allows for adjustable angle.

Vertical bed-card holders

* *Vertical* bed-card holders fitted with adjustable clips.

The clips can be adjusted by hand to fit securely to any vertical back-board, or angled front board, up to 1" (25mm) thick.

A5 Slim Frames display standard 8"x 6" bed cards - securely. Vertical clips can also be fitted to A4 and A3 size frames, in any standard frame colour.

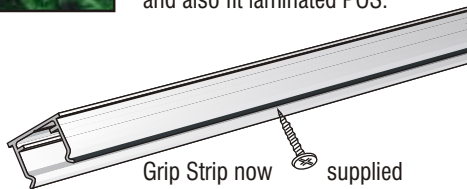

Slim Frames & Grip Strip

- * Grip Strip secures Slim Frames up to A3 size.
- * Versatile and economic for display of bed cards.

A5 size Slim Frames enhance the appearance of bed cards and also fit laminated POS.

The smart co-ordinated look

Grip Strip can be used on top of bed dividers when under cover (i.e. out of the wind). Pictured right (top).

Slim Frame angled bed card holder (foreground), used alongside a Grip Strip installation, maintains a pleasing continuity of appearance running right through the plant area.

Stake labels

Stake 'n Clips are ideal florist-shop pricing stakes. They are fully adjustable in height and angle with a 'bucket clip' which attaches securely to floristry buckets or vases.

The pricing card has a write 'n wipe surface which is suitable for use with Posterman pen. The 'bucket clip' holds the stake firmly at the desired height, to suit the flowers on display.

Stake 'n Clips & Roto Clips

Please state preferred card shape: **Oval or Rectangular**

U-Holders grip rigid boards up to 10mm thick.

It is possible to use two 5mm foamex panels back-to-back, so each side can be changed independently. The hand-wheel allows easy tightening.

The bracket is designed to fit many situations - extra holes are provided to suit a variety of screw positions depending on the construction of existing benches.

U-holders can be used singly or more usually in pairs e.g. for supporting sectional signage in the plant area.

Leg height is 125mm / 5". Finish: steel powder coated silver.

Screw-down sign holders

- * In windy situations it pays to screw things down!
- * Slim frame models suit laminated A4 and A3 signs
- * Twin pole system suits A2 signs

Twin Pole screw-down stand with A2 frame

The Twin Pole stand is supplied with an A2 size Slim Frame. It is suitable for benchtop POS outdoors or in covered areas.

The tube holders (pictured right) are screwed down to the bench. Aluminium stub tubes are then pushed into each tube holder. The black poles with A2 frame attached are then dropped onto the stub tubes (they are a slip-on fit.)

U-holders

are useful for securing sectional signage in the plant area.

Klick frames with clips

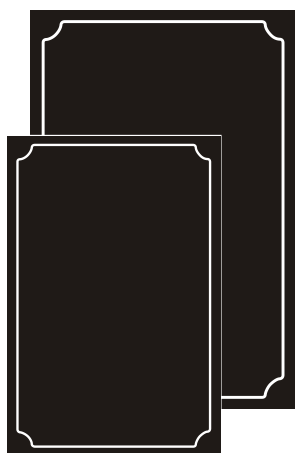

- * Klick frames are compact and economical.
- * This version has angled clips to attach to wooden plant benches. See also P.44 for A5 (bedcard) size.

Sizes: 1/4 A4 (QA4) is 210mm wide x 74mm high (approx 8" x 3")

Chalk Cards

- * Chalk Cards are low cost plastic write-on inserts

Chalk Cards are waterproof when used with Posterman pens and can be erased and re-used - see below*. They should be used within a frame. (A5 can be used in bed card track).

PLEASE NOTE: *Chalk Cards are a consumable item with a limited life. In particular the larger sizes should not be exposed to strong direct sunshine as they can distort permanently if they get too hot. They should NOT be used behind a plastic cover. They can normally be erased and re-used for a limited number of cycles. See erasing advice under Posterman pens.

Posterman pens

POSTERMAN pens are ideal for hand-written POS signs. They are waterproof and fade resistant outdoors. Yet remarkably they can be easily cleaned off many surfaces - such as glass and plastics, including Correx. This makes it easy to change your messages or prices.

For removing Posterman from non-porous surfaces we recommend Mr Muscle Window & Glass cleaner.

There are two standard nib sizes, Chisel for smaller sign writing and Big 'n Broad for doing bolder signs.
